Territory of Oklahoma and the Indian Territory under one government;
(b), to educate the public mind upon the advantages and benefits to be
derived from such a union; (c), to hasten the admission into the Union
of States the two Territories as one state; (d), to promote Home Rule
and such other Federal legislation by Congress as, with just and right-
eous administration of our laws, will result in the greatest good to the
greatest number of our people.

SECTION 3.—The officers shall be: A President, a Vice-President, a

ble to membership, and all such persons subscribing to this constitution
shall thereby become members of this League.

SECTION 7.—This Constitution may, at any meeting, be amended,

MEMBERSHIP PLEDGE.

SECTION 8.—We, the undersigned citizens of....., I. T., and

the union of Oklahoma and the Indian Territory and their speedy ad-
mission into the Union as one state.

Japanese servants are the prevailing
fad in society on the other side of the
Atlantic. The Jap is regarded as "the
Frenchman of the east," and is not only
clean, but he refrains from gossip,
possibly because his knowledge of the
language does not admit of much chat-
ter at present. When waiting he is
allowed to wear his native dress, which
always has the family crest embroide-
red on it, so that he not only adds pic-
turesqueness but a distinct dignity to
serve. In time, no doubt, the idea will
spread east, and may, perhaps, offer a
solution to the ever-present and per-
plexing servant problem.—Malay Mail.

Tomato Jelly Salad.
Let simmer together for 15 minutes
one pint of stewed tomatoes, four
cloves, one bay leaf, one blade of mace,
one-half teaspoonful of salt, one-fourth
teaspoonful of paprika, and ten drops
of onion juice. Press through a fine
sieve, and add one-third of a box of
gelatine which has been soaked for one
hour in one-third of a cupful of cold
water. Stir until dissolved, add two
tablespoonfuls of tarragon vinegar,
and pour into wet individual molds.
When firm turn out on lettuce leaves,
and garnish with mayonnaise.—Home

INDIANS WILL BE ENROLLED.

List of Freedmen in the Cherokee
Nation to be Made by the
Commission.

The United States commission to
the Five Civilized Tribes has arrived
at Sallisaw, I. T., and will begin
making a roll of freedmen citizens
of the Cherokee nation. At Bunch,
I. T., where the commission was
at work last, the full-blood Cherokee
Indians showed a disposition not to
be enrolled, and as a consequence not
many names were registered at that
place from the ranks of the full-
bloods.

It has been easy to determine who
were the blood citizens and intermar-
ried and adopted citizens, because
their names were either upon the duly
authenticated rolls of 1880 or they had
certificates duly attested showing
their admission, but with the freed-
men citizens the matter is entirely dif-
ferent.

All freedmen who returned to and
resided in the Cherokee nation within
six months after the ratification of the
treaty of 1866 were allowed to share
equally with the Cherokees in the
final distribution of the lands and
moneys of the tribe. Several rolls of
freedmen have been made, but none
has been satisfactory.

The last roll, known as the Clifton
roll, contains the names of about 4,600
negroes and not more than 2,000 are
entitled to enrollment. The work of
making the freedmen roll at Sallisaw
will be watched with great interest by
the Cherokees. The burden of proof is
on the freedman to prove that he had
returned to the Cherokee nation with-
in the required time in 1866. A wit-
ness to be competent to testify in
these cases will have to be well up in
age.

This work will require the attend-
ance of nearly all of the oldest citizens
in the nation at the various sittings
of the commission.

BEWARE FROM EVERY PORE.

The Strange Disease That Is Sapping
the Life of a Michigan
Farmer.

Loren Emmons, a farmer in Pokagon
township, Mich., is slowly bleeding to
death from every pore of his body. The
disease is a very rare one, and among
the medical fraternity is known as
purpura hemorrhagica. Last Tuesday
night black spots appeared on Mr. Em-
mons' ankle. He went to a physician,
who found them to be hemorrhages be-
neath the skin. Since that time like
hemorrhages have taken place all over
the body and Mr. Emmons is bleeding
from the roof of the mouth, the nose,
the ears and even the slightest scratch
anywhere on the body, or a little bruise,
will produce blood. This disease gen-
erally presents itself in a weakened
person, but Mr. Emmons has always
been possessed of robust health, and
the case is very peculiar.

The 50-Year-Old Man.

A statistician has estimated that a
man 50 years old has worked 6,500 days,
has slept 6,000, has amused himself
4,000, has walked 12,000 miles, has been
ill 500 days, has partaken of 36,000
meals, eaten 15,000 pounds of meat and
4,000 of fish, eggs and vegetables, and
drunk 7,000 gallons of fluid.
